

## The Advantages Of Choosing Ladenko

### Quick and Easy to install:

- Quick release hanger system
- Pelmet pre-drilled and cut to length
- End loading mounting plate makes it quick & easy to fit and remove door

### Quality components & construction:

- Select grade kiln dried hardwood jambs & pelmets
- Full length MDF base glued & stapled providing extra strength
- Full KDHW frame for strength & stability
- KDHW provides better durability than softwood & enhanced stability in wet areas
- 10 Year warranty

### Quality fittings:

- Single piece aluminium head-track system ensuring smooth & quiet operation
- 4 wheel carriage with precision bearings
- Nylon hanger body eliminating the need for lock-nut

### Options available:

- Soft closer (an affordable luxury )
- Frames to suit 80kg and 120kg maximum door weight
- Frames to suit 180kg and 250kg maximum door weight available on request
- Frames can be custom made with self -closer (specify at time of ordering )
- Various trim options available on request
